

Member State / Replies ⁽¹⁾	Questions		
	Is your Member State supporting multiple versions of the CESOP XSD or just one version at a time?	When is your Member State planning to support the use of XSD 4.03 in production?	In case your MS only supports one version at a time, can you confirm the deployment of the XSD 4.03 from 25 March 2025?
NA-AT	One version	25 March 2025	Yes
NA-BE	One Version	After January 2025 before April 2025	Yes
NA-BG	Multiple versions	Mid of January 2025	Yes
NA-CY	One version	25 March 2025	Yes
NA-CZ	One Version	End of February 2025	Yes
NA-DE	Multiple versions (v4.02 & 4.03)	End of 2024	Yes
NA-DK	One version	25 March 2025	Yes
NA-EE	One version	01 January 2025	Yes
NA-ES	Multiple versions (v4.02 & 4.03)	25 March 2025.	Yes
NA-FI	One version	25 March 2025	Yes
NA-FR	One version	End of March 2025, no later than 01 April 2025	End of March 2025, no later than April 1st 2025
NA-GR	Multiple Versions; Uses the validation module V.1.5.0	25 March 2025	Yes
NA-HR	Multiple Versions; Currently only 4.02; next release will allow both 4.02 and 4.03; Older version (4.0) not supported	When the correspondent version of the validation module is available/published.	Yes
NA-HU	One version	25 March 2025	Yes
NA-IE	One version	24 February 2025 (with a code freeze for release to live on 24 March 2025)	Yes
NA-IT	Multiple versions	Before 25 March 2025	Yes

NA-LT	One version	Before 25 March 2025	Yes
NA-LU	Multiple versions; Uses the validation module; supports XSD v 4.00 to 4.03	Already use the validation module version 1.6.0	Yes
NA-LV	One version	25 March 2025	Yes
NA-MT	Multiple versions; Use of the validation module; supports XSD v 4.00 to 4.03	When the correspondent version of the validation module is available/published.	Yes The newer version of the XSD will be required
NA-NL	One version	01 April 2025	01 April 2025
NA-PL	Multiple versions (v4.02 & 4.03)	Not able to give the date at this moment.	No
NA-PT	Multiple versions (v4.02 & 4.03)	25 March 2025	Yes
